# Delta DC-7

## *Royal Service Flights*

These outstanding airliners introduced Delta's highly acclaimed Royal Service Flights and have established a new standard for luxury service aloft. DC-7's are in use over the Delta system in both deluxe first class and coach service. Advanced cabin pressurization enables the DC-7 to cruise six miles a minute at 25,000 feet, far above surface weather, while cabin pressure is equivalent to only 8,000 feet. Air-conditioned on the ground and in the air.
